CLAIMS

1-13 (cancelled)

14. (currently amended) A synergistic mixture for enhancing the brightness of bleached pulp ~~comprising~~ consisting of:

- a) from about 40 weight % to about 60 weight % water;
- b) from about 20 weight % to about 95 weight %
diethylenetriaminepentakis(methyl)phosphonic acid or its known salts;
- c) from about 5 weight % to about 50 weight % polyacrylic acid or its known salts;
and optionally
- d) base for pH adjustment and from about 1 weight % to about 20 weight % of one or more inert compounds.

15. (currently amended) The synergistic mixture of Claim 14 ~~comprising~~ consisting of

- a) about 50 weight % water;
- b) about 29 weight % diethylenetriaminepentakis(methyl)phosphonic acid or its
known salts;
- c) about 14 weight % polyacrylic acid or its known salts;
and
- d) about 7 weight % of one or more inert compounds.

16. (previously presented) The synergistic mixture of Claim 14 wherein said
diethylenetriaminepentakis(methyl)phosphonic acid or its known salts is sodium
diethylenetriaminepentakis(methylene) phosphonate.

17. (previously presented) The synergistic mixture of Claim 14 wherein said polyacrylic acid or
its known salts is sodium polyacrylate.

OFFICIAL

18. (previously presented) The synergistic mixture of Claim 14 wherein said inert compounds are selected from the group consisting of sodium sulfate, ammonium sodium sulfate and sodium chloride.
19. (previously presented) The synergistic mixture of claim 18 wherein the inert compounds contained in said composition comprise at least about 4.5 weight % sodium chloride, about 0.25 weight % ammonium sodium sulfate and about 2.25 weight % sodium sulfate.
20. (new) A composition comprising
- a) about 50 weight % water;
 - b) about 29 weight % diethylenetriaminepentakis(methyl)phosphonic acid or its known salts;
 - c) about 14 weight % polyacrylic acid or its known salts;
and
 - d) about 7 weight % of one or more inert compounds.
21. (new) The composition of Claim 20 wherein said diethylenetriaminepentakis(methyl)phosphonic acid or its known salts is sodium diethylenetriaminepentakis(methylene) phosphonate.
22. (new) The composition of Claim 20 wherein said polyacrylic acid or its known salts is sodium polyacrylate.
23. (new) The composition of Claim 20 wherein said inert compounds are selected from the group consisting of sodium sulfate, ammonium sodium sulfate and sodium chloride.
